

SANDHILLS PCN

## Sandhills Primary Care Network Patient Participation Group

Sandhills PCN are looking for new members to join our Patient Participation Group (PPG). We are looking for representatives from **Langford, LGBTQ+ communities, ethnic minorities, and ages 18-25.**

### What is a PPG?

A PPG is a group of people who are patients of the surgery and want to help it work as well as it can for patients, doctors and staff.

Sandhills PCN is comprised of Sandy Health Centre and Saffron Health Partnership, so our PPG works on developing and improving services for both our member practices simultaneously.

### Why are we looking for new members?

We are looking for representatives from these specific cohorts due to their lack of representation on our PPG currently. We want to make sure that our PPG is diverse so that our members can provide insight into the needs of our community. We are working on improving the delivery of primary care through our services and we value the input of patients for suggestions and ideas.

### Why should I join Sandhills PCN PPG?

If you are a patient of either Sandy Health Centre or Saffron Health Partnership and feel that you can offer insight and suggestions into how to improve primary care services, then you should consider joining Sandhills PCN PPG.

We are looking for specific representatives to join us at this time, however we do have a waiting list for other applicants.

### How do I join Sandhills PCN PPG?

You can join Sandhills PCN PPG using the Sign Up Form on our website - <https://sandhillspcn.co.uk/ppg/join-our-ppg/>

We ask for your name, telephone number and email address, along with a few words about why you want to join our PPG.

We meet once a month for 1 hour on a Wednesday. PPG members are invited to join in person or via Teams.
